Subject: Bring Sites/TetraPaks

Hi Joyce, Chris, Paul & Jane

I have finally received a response from Ian James (Depot Operations). He said -

"Hello, we no longer operate bring sites as there is a comprehensive kerbside recycling service. Operating within the infrastructure and resources available at this time we focus on the largest volume materials, cartons by comparison are quite a low percentage of the overall waste stream. The cost versus the amount of materials collected isn't viable at this time as an 'add on' service. However TetraPak should be part of the up-coming SBC Waste Strategy and should be assessed for future viability."

What are your comments?

Kind Regards

Nadine Watts
