Hello Joyce,

We are conducting a final survey this week and the outcome of this will determine the timescale for demolition however it is currently anticipated that this will be in October 2018 and a planning application for the site will be submitted in Autumn 2018.

Dear Rachael & Rachel

The Parish Council considered the demolition of the site at George Gay Gardens at their meeting last night.

They had no objection to the demolition of the site, but they have expressed concern about the time the site will be left before any new development takes place.

They would not want to see hoarding up for several months/ years like some other sites in the town.

They would like to know the timescales that Swindon Borough Council are working towards for the new development.

I look forward to hearing from you.

Regards

Joyce
