Subject: Grass verges

Joyce, the grass verges on the streets off Kingshill are getting churned up, due to cars driving on them. I would like to ask if the Parish Council can investigate this and see if there is a solution to improve them, either by reseeding or by installing grasscrete in certain places so that the verges are not damaged in future. In particular I'm referring to Bowood Road, Hillside, Sunnyside and Grosvenor Road.

Please can you let me know how this can be dealt with and which committee it can be discussed at.

Best regards Paul
