Subject: RE: Toilet Block - Evelyn Street

Hi Joyce

Officers have suggested the demolition of this building and have requested that this is funded from capital. A bid for monies to undertake this activity will be part of the Boroughs budget setting in February.

The reason for this approach is to remove the liability for the property following the decision taken that the toilets would not be open for use.

If the parish are interested in the building then I would be happy for you to share your proposals with our elected members for a decision. My recommendation to elected members would be that if the parish committed to take this property they would need to accept a lease of it and all responsibilities for it too.

Please can you let me know what you propose to use the property for and what your decision process will entail?

Thanks Kathy

Subject: Toilet Block - Evelyn Street

Dear Kathy

The Parish Council understands that SBC are considering demolishing the toilet block at Evelyn Street. Firstly can you let me know if this is a decision or at the discussion stage at the moment.

The reason for asking is that the Parish Council may be interested in the building, not as a toilet but for another use.

The Parish Council only want to express an interest at this stage.

Can you let me know the current position

Regards

Joyce

Joyce Holman
Clerk
South Swindon Parish Council (Central Swindon South Parish Council)
