02nd October 2019

Dear Councillors,

PROPOSED BASE STATION INSTALLATION AT CTIL120898_TEF381_VF1824 BROOM FARM ALLOTMENTS, PIPERS LAND, SWINDON, WILTSHIRE, SN3 1RJ. (NGR: 415936E, 182548N)

Telefónica UK Limited has entered into an agreement with Vodafone Limited pursuant to which the two companies plan to jointly operate and manage a single network grid across the UK. These arrangements will be overseen by Cornerstone Telecommunications Infrastructure Ltd (Cornerstone) which is a joint venture company owned by Telefónica UK Limited and Vodafone Limited.

This agreement allows both organisations to:

- Pool their basic network infrastructure, while running two, independent, nationwide networks
- Maximise opportunities to consolidate the number of base stations
- significantly reduce the environmental impact of network development

Cornerstone and Vodafone and Telefónica have identified this site as suitable for an equipment upgrade. The purpose of this letter is to consult with you and seek your views on our proposal before proceeding with the works. We understand that you are not always able to provide site specific comments, however, Cornerstone and Vodafone and Telefónica are committed to consultation with communities for mobile telecommunications proposals and as such would encourage you to respond.

As part of Vodafone's and Telefónica's continued network improvement program, there is a specific requirement for an upgrade at this location to ensure the provision of up to date technologies across all frequencies.

Mobiles can only work with a network of base stations in place where people want to use their mobile phones or other wireless devices. Without base stations, the mobile phones and other devices we rely on simply won't work.

Sinclair Dalby Limited, Suite H, KBF House, 55 Victoria Road, Burgess Hill, West Sussex, RH15 9LH

Registered Office, Sinclair Dalby Limited, Springfield Lodge, Turners Hill Road, Kingscote, East Grinstead, West Sussex, RH19 4JZ. Registered in England 7610197.

Description of Development:

- The removal and replacement of 6 no. antennas
- The installation of 2 no. 0.3mm microwave dishes
- The installation of ancillary equipment

The proposed installation comprises:

- The removal and replacement of 6 no. antennas – all these are a similar size to the existing. The installation of 2 no. 0.3mm microwave dishes and the installation of ancillary equipment.
- The site is an existing telecoms site, the new antennas are at the same height and in the same location as the existing and the proposal will have a minimal impact on the appearance of the tower or the area.

The Local Planning Authority mast register, where available, and our records of other potential sites have already been reviewed, the policies in the Development Plan have been taken into account and the planning history of the site has been examined.

All Vodafone and Telefónica installations are designed to be fully compliant with the public exposure guidelines established by the International Commission on Non-Ionizing Radiation Protection (ICNIRP). These guidelines have the support of UK Government, the European Union and they also have the formal backing of the World Health Organisation.

We look forward to receiving any comments you may have on the proposal within 14 days of the date of this letter.

Yours faithfully,

A handwritten signature in black ink, appearing to read 'PP 1' followed by a stylized name, possibly 'Dalby', with a long horizontal stroke extending to the right.
