**Subject:** FW: Fly-tipping - Clinical Waste

Hi

Orange bags are Commercial Waste and not Clinical Waste. The commercial waste collection is on a Monday for Old Town so I suspect someone put their bag out early.

**Subject:** RE: Fly-tipping - Clinical Waste

Dear Rachel,

On 19<sup>th</sup> January 2019 (a Saturday) one of our councillors Toby Robson had again spotted an orange bag of infectious/clinical? Waste outside at the same location in Old Town referred to previously.

Obviously due to the day this was put out on it was not a collection day and certainly wasn't collected on the Sunday.

Do you know what the problem still is in this location? If the problem is the same person that has been identified and provided with means to store this rubbish until collection then what other powers do the Council have to prevent this happening?

Kind Regards,

Jake Mee MAAT  
Deputy Clerk and Responsible Financial Officer  
South Swindon Parish Council

Hi Joyce

The investigation is complete and the resident spoken to. This was a resident that had put their clinical waste out early due to limited space in their flat. A receptacle has been provided to them so that they can store it more appropriately.

The “new” report was, as I understand it, the waste being presented for collection on their collection day.

The case has therefore been closed.
