Hello Joyce,

I hope you're well. Just a quick note - first to apologise for my recent absences from council; I'm now Daddy to twin boys, so my hands have been very full for the last couple of months. Hopefully the busiest time may have passed and now I occasionally get some sleep, I should get back full in the fold!

So, I ask the following with further apology in case these questions have been covered at the last council meeting, or have been included in any correspondence which Ive missed.

1. A parishioner who also works in the media has asked me when and where there is advance public notice of full council meetings - and when/how they can get copies of agendas. (Im aware of the website which has them listed - but does the parish council have a distribution email list to proactively inform any members of the media or public of forthcoming meetings?

2. Another parishioner has expressed frustration that SBC now appears to require people reporting flytipped rubbish to complete an online form. This obviously excludes a significant percentage of the community who either dont have access to smart phone or laptop - or who are uncomfortable using them for this purpose even if they do own one. The parishioner was venting their ire at me and the parish, as they said they'd been lead to believe that collection / enforcement of flytipping was now our remit. As far as I was aware, Street Smart as yet still holds that responsibility - and is centrally managed through SBC and the borough? If Ive got that wrong, please put me straight!!

Depending upon the answers to .2 , Id be interested in possibly adding this to the agenda of a council meeting....

Best regards,

Toby Robson
