Subject: RE: Fly-tipping - Clinical Waste

Hi Joyce

The investigation is complete and the resident spoken to. This was a resident that had put their clinical waste out early due to limited space in their flat. A receptacle has been provided to them so that they can store it more appropriately.

The "new" report was, as I understand it, the waste being presented for collection on their collection day.

The case has therefore been closed.

Rachel

Dear Rachel

Is there any more news on this.

I understand that some more waste has been found by the same Councillor, although he has not mentioned it to me I have heard there was something posted on social media.

I don't have much time left now, as I leave at the end of the week.
